

CONVERSATION SPACE

Light Chats, Deep Talks, and Events Share culture and ideas across borders Small, relaxed lunch space

Conversation Space is a small, easygoing room where people from different countries and backgrounds sit together, share stories, and think about life, studies, and the world.

In Light Chats, we will talk about simple, fun topics. In Deep Talks, we slow down and think more carefully about one theme, sharing different opinions and listening to how people with other backgrounds see the world. Event days where we try intercultural activities and think about studying abroad and living in other cultures.

We mainly use English as a tool so that everyone can join the same conversation, but your English does not need to be perfect.

You can just listen more, join late, or speak a little.

What matters is being open to other people and other perspectives!

12:30-1:00 PM | FRIDAYS
BUILDING 7, ROOM 744

This program is separate from the Language Lounge and is organized by CLED.
